which education for sustainable development (ESD) can

be integrated into primary and secondary schooling. This collection of briefs is designed to complement other ESD materials published by UNESCO. The topics for the briefs were selected in consultation with UNESCO Field Offices and Institutes. The briefs for primary and secondary teachers are specially written for professional educators.

Education is Fundamental to Development and Growth

Education is fundamental to development and growth. The human mind makes possible all development achievements, from health advances and agricultural innovations to efficient public administration and private sector growth. For countries to reap these benefits fully, they need to unleash the potential of the human mind. And there is no better tool for doing so than education.
