Investment style is the method and philosophy followed by an institutional money manager in managing separate accounts or managed funds. The investment style of a fund helps set expectations for

Investing Style - Investopedia

Investing style is an overarching strategy or theory used by an investor to set asset allocation and choose individual securities for investment.

investment style - The Balance - Make Money Personal

These are important questions to ask yourself before committing to an investment style or before trying one on for size, so to speak. Here is a basic overview and checklist of investment styles, tactics, and strategies to do your homework or review before, during and after you invest.

What is your investment style? - The Co-operators

What is your investment style? Everyone has an investment style that is as personal to them as a fingerprint. But how do you find out what yours is? The simple answer is to determine what level of risk you are comfortable with in your investments. The risk-return ratio. The risk involved in a stock is sometimes equal to the return on investment that the stock offers. While this is not always

The investment management style decision

The investment management style decision A question of value Value style investment managers pick stocks that have low prices in relation to such factors as earnings, sales, and the book value of the issuing companies. They consider these investments to be on sale. A value manager might avoid a popular blue chip stock because the price per share is too high, even though the issuing

Investment style - Wikipedia

Investment style refers to different style characteristics of equities, bonds or financial derivatives within a given investment philosophy. Theory would favor a combination of big capitalization, passive and value.
